

Hunger remains our biggest challenge.

Dear valued NOAH supporter,

Thank you for your generosity in 2020, your support is valued and appreciated more than I can express.

As we face 2021 food insecurity is the biggest concern. The cost of food has increased, but incomes either remain the same or, in most cases, have dropped dramatically due to unemployment during the pandemic. Apart from the day-to-day needs of our residents, many of them are desperate to assist their unemployed families with meals, despite their own financial constraints.

With your support, we can feed up to 70 people/day, five days a week.

Our wish is to provide NOAH members and their wider Woodstock community, including children, with a hearty and nutritious cup of soup or stew and a sandwich each week day.

To do this cost effectively and efficiently we need to purchase an industrial food processor to prepare the veggies, utensils and disposable containers. Velma and Valda (our Community Meal Manager and Assistant), will prepare the meals with their team of NOAH resident volunteers.

Can you please help with a contribution towards the equipment and make this plan a reality?

Any amount will help and be greatly appreciated.

Best wishes, *Anne*
